

**Remember Me**  
By Shayla Collins

He doesn't see the love he has  
He doesn't know its face

He can't see through the lies he knows  
He reaches out,  
But can't see the hands that reach back

He's in a straight jacket of misconceptions  
Where is he to turn?

If he only knew how much he's loved  
He wouldn't be this far

How can you think you're nothing?  
How can you not see me here?

I've loved you with everything since the beginning  
You are always on my mind

I know you can make it  
Just get up, I'll give you strength

I'm waiting for you  
Waiting for your heart

Never forget the love you own  
You are worth so much to me

I'm willing to take your burdens  
Waiting to take your pain

Remember me?  
I love you

Remember me...

Remember me...
